Hedgehogs – Week 4

Hedgehogs,

I hope you are all well and keeping busy. This last week has been a little different for me and my family because it's the month of Ramadan. If you don't know, Ramadan is when Muslims 'fast' during the day. This means we cannot have any food or water during the day! We have a light meal around 3:00 AM (or 3'oclock in the morning) and then we pray before going to bed. We then cannot eat or drink anything until around 8.30 PM (or half past 8 in the evening). We have to 'fast' for almost 18 hours! Ramadan is not just about not eating but a chance for me and my family to practise being kinder to people, giving money to charity, praying more and for some, practising our cooking skills! I'll make sure to take pictures of anything special we make so I can show you. I think samosas are on the menu for next week..

I have been practising how to sew a button on some fabric and as you can see I got carried away! Why don't you have a go at sewing too? Make sure you only do it with a grown up as the needles can be very sharp and dangerous.

I would like to show you this really handy website where you can <u>read books for</u> <u>free</u>. Also, make sure you tune in to <u>this website</u> because they're offering daily phonics lessons from 10.00 AM to 11.00 AM. I recommend you take part in the **10:30 AM one <u>especially</u> if you are in Year 1**. Year 2, you could also take part if you just fancy keeping your phonics skills fresh. I am always wondering what you all have been doing at home so please do keep sending in things to the school email address. It puts a smile on everyone's face! <u>info@hackwood.theharmonytrust.org</u>.

Miss Hussain 🙂

Aliens Stole My Underpants

To understand the ways of alien beings is hard and I've never worked it out why they landed in my backyard. And I've always wondered why on their journey from the stars, these aliens stole my underpants and took them back to Mars. They came on a Monday night when the weekend wash had been done, pegged out on the line to be dried by the morning sun.

Mrs Driver from next door was a witness at the scene when aliens snatched my underpants-I'm glad that they were clean!

It seems they were quite choosy as nothing else was taken. Do aliens wear underpants or were they just mistaken? I think I have a theory as to what they wanted them for, they needed to block off a draught blowing in through the spacecraft door.

Or maybe some Mars museum wanted items bought back from space. Just think, my pair of Y-fronts displayed in their own glass case. And on the label beneath would be written where they got 'em and how such funny underwear once covered an Earthling's bottom!
