

Hello Owl Class! I hope you have all been enjoying the nice weather. We have made good progress with the play house which is now nearly finished! The boys helped with the painting (which made more mess!) and we all had fun. Have you all been helping at home? You're all very helpful at home so I'm sure you are at home too.

Stay safe and keep busy!

Your activities this week are listed below. I have included Purple Mash activities and offline activities. Remember work at your own pace, there is no deadline, and if you want to continue working on something from a previous homework menu then that is absolutely fine!

As a reminder of some of our learning, I've put some links to the Twinkl website. Here is a link and the offer code <https://www.twinkl.co.uk/offer> Please use offer code: UKTWINKLHELPS.

Maths

Times table challenge! Have a practice of your times tables first and then ask someone to time you completing each one. Remember to use Times Tables Rockstar to gain some extra points!

English

Write a description of a member of the family. What do they look like, hobbies, how do they behave, favourite things etc? You could also try this for a famous person or even someone from school.

Spelling

Choose five words from statutory list. Discuss their meanings and how you might remember them. Use one of the strategies we have learnt to learn them: • Pyramid words • Identifying tricky part of the word • Trace, copy, replicate • Look, say, cover, write, check • Drawing around the word to show the shape • Drawing a mnemonic around a word.

PE

This week I have set something a bit more active for you to have a go at... Yoga! The YouTube channel I have put the link for below has lots of different stories for you to follow and do yoga alongside it. We have had a go at home and have very much enjoyed it.

Purple Mash

For this week I have set three To Dos in Purple Mash. There is a Maths activity using. For English, I'd like you to read the second chapter of Around 80 Minutes and then complete the quiz. The maths activities this week are to have a go at using your knowledge of addition and subtraction and also to recap what we know about shapes. For Topic this week is to have a go at a computing exercise building your own 3D maze. Finally, there is an art activity for you to complete making 3D glasses.

Please let me know in the comments box how you found each activity so that I can set your work at a level that is right for you.
